Languages: English, siSwati

WORK EXPERIENCE

Abangani Media

MAY 2021 – JULY 2021

I worked for a limited time as an intern in this medium size web development agency which builds websites and templates for clients. My time in this post taught me how to structure and manage big and real projects. I was mainly working with front end technologies like HTML and CSS. I also learned how to work and collaborate with other developers in a single project with ease.
